BRIEF ABSTRACT OF LETTER.

NOTES AND ORDERS.

In ind file no. 382-07 relating to the rules for the protection of water and drainage works erected without the latest Engineer to proposed certain rules of which 2 under overleaf were considered not to fall under

Section 176 (d) of the Act Regulation
The Water Supply Department
may after giving reasonable
notice to the owner or occupier
affected carry any pipe for the
water supply of the City of
Bangalore through, across or
under any street or other pla
or into or under any building
cellar or vault.
The Water Supply Dept shall pay
reasonable Compensation
any person who sustains
damage by the exercise of
such power or shall make
good the same, according
to the circumstances of each
case

above rules were omitted from
the rules issued under G.O. No. G/D K
(L.388-07)-5 dated the 7th August 91
and the Dewan has been pleased
to note in the submission noted in
Highness that the question of incor
porating the above two rules would
be taken up separately for
consideration

The First Councillor has been pleased to record on that file that the authority to construct works of permanent nature referred to in sub sec 1 of sec 176 of the Act Regulation wholly or partly on private property must be derived in some other manner (by contract or other legal method of acquisition) & that the rules for the regulation of water supply which are not passed under any legislative sanction do not provide any such authority. So, if approved the papers may be referred [illegible] for taking necessary action with regard to the issue of the two rules

24 These papers relate to an amendment of the Mysore Municipal Regulation of 1906.

25 2. Certain rules were suggested by the Chief Engineer for sufficiently safeguarding against unauthorised interference with water pipes and sewers, under Section 176 (d) of the Mysore Municipal Regulation. The first two of these rules were omitted as not falling within the scope of Section 176 (d) of the Regulation and the rest received His Highness's sanction on the 26th May 1913.

26. 3. he two rules then omitted relate to the vesting of power in the Water Supply Department to carry any pipe, main, &c., for water supply through any property and to the payment of compensation for damage caused to any person by such work. The Municipal Regulation provides for such necessary facilities in the case of drainage works but contains no similar provisions so far as works relating to water supply are concerned. It is proposed to insert a Section in the Municipal Regulation providing that the Water Supply Department or the Municipal Council shall have the same powers with respect to the construction and maintenance of water works as the Municipal Council has in the case of drainage works

27. 4. A Bill has accordingly been drafted on the basis of Section 265 of the Bombay City Municipal Act and I solicit sanction to action being taken to place i before the Legislative Council.

58 A consolidated draft Bill further to amend the Mysore Municipal Regulation, 1906, is submitted together with a statement of objects and reasons.

Clause 1 of the Bill is for amending section of the Regulation to empower every Municipal Council to sell, without the sanction of Government, immoveable properties belonging to them and not exceeding Rs. 200 in value. This is considered necessary to save time and correspondence in cases of sales or other transfers when the value of the property is small.

60 β. Clauses 3 and 4 of the Bill are for adding a new section 112A under sub-heading (3) of chapter IX of the Regulation. The object of this amendment is to enable the Municipal Council to carry water-mains, &c., through private property, if found necessary, and to enter thereupon for the purpose of renewing, repairing or maintaining the same, and to compensate the owners for any damages that they may suffer thereby.

61 ∧. These proposals have already been approved by His Highness.

62 ϗ. Clause 2 of the Bill is new. There are no facilities at present for detecting unregistered motor vehicles, bicycles or tricycles running within the Municipalities and there is no obligation on the part of the owner of such a vehicle, bicycle or tricycle to affix to it a conspicuous mark to show that the same has been registered in the Municipal office. This clause empowers Municipal Councils to frame a bye-law requiring the owner of motor vehicles, bicycles and tricycles to have them

numbered and registered in the Municipal Office. This amendment is in conformity with the law in force in the Civil and Military Station, Bangalore.

4. The following new section shall be added after section 112:-

" 112 A. The Water-Supply Department Power of carrying of Government or the water mains,etc. Municipal Council, as the case may be, in whom the duty of construction and maintenance of Water Works for the suppl of water to the Municipality vests, shal have the same powers and be subject to the same restrictions for carrying, re- ɲewing and repairing water mains, pipes nd ducts within or without the Municiality as the Municipal Council have and re subject to, under the provisions here

Statement of objects & reasons.

Under section 40 (2) of the My: Municipal Regulation, 1906, every sa: of immovable property by a Municipal Council requires the previous sanctic overnment. Before the Municipal Re; ation became law, the Deputy Commis: rs~~and~~ as Presidents of Municipalities o sell sites in Municipal Towns without eference to Government. The proposal t uthorize every Municipal Council to sel ithout the sanction of Government, any mmovable property belonging to ~~it~~ ha ngaging the attention of Government. Th ubject was last mooted in the Represen- ative Assembly of ~~1881~~ 1911. To save time and correspondence it is considered desi rable to delegate to the Municipal Coun- cils the power now vested in Government in cases of sale or ~~of~~ other transfer whe~~re~~ the value of the property transferred does not exceed Rs.200/-

2. The existing practice of regist
motor-vehicles, bicycles and tricycl
is reported to be unsatisfactory and
large number of such vehicles, bicyc
and tricycles are said to be escapin
registration. As there are no easy
means of detection, it is proposed to
empower Municipal Councils to frame byc
laws so as to number motor vehicles, b:
cycles and tricycles and register the
numbers in the Municipal Office. The
amendment is in conformity with the lav
in force in the Civil and Military ---
Station.

3. Again the Regulation gives power
the Municipal Council to carry drains
through private property, if necessary
by compensating the owners or occupier
thereof for any damage done to them by
such act, but does not give a similar
power in respect of Water Works.

To remedy this defect, Government

propose under the present Bill to give t
Municipal Council or the Water Works De-
partment, as the case may be, who have t
construct or maintain the water works,
the same powers in respect to such works
as the Municipal Council have under the
Regulation in respect of drainage.
